Features and Performance:

- *Superior quality/Popular design and easy operation/Time control and speed adjustment setting
- *The ink can be used for production immediately after stirred completely by the stirrer without halt to save the ink; the stirrer can prevent air bulbs from occurring in the ink due to dirt mixed into the ink during operating, and it improves productivity and ink quality greatly.
- *The motor used by the stirrer can be operated in clockwise direction and counter clockwise direction, the speed is even and can be adjusted, the stirring knife can be arranged in different positions according to the dimensions of ink drums.
- *Oil-free vacuum pump used by the machine is a kind of high quality, high efficiency, long life, low noise, stable operation and safe vacuum pump.
- *The vacuum ink stirrer is the best machine for ink stirring as it is easy and convenient for operation with even stirring result.

Parameter:

Model	C700H -12pa	C700H -80pa
Stirring volume	1-5L	1-5L
Speed	0-150rpm (inside set adjusted time is of 5-10 minutes)	2200rpm (inside set adjusted time is of 5-10 minutes)

Time control	0-999mins	0-999mins
Power	AC 220V 50HZ 180W	AC220V 50Hz 500W
Motor power	60W	60W
Speed ratio	150r/min	150r/min
Weight	32KG	62KG
Dimensions (mm)	400*400*910	500*500*950

Notes: we are always improving and innovating in technology and quality. All machines can be designed according to those given parameters and requests from customers. Parameters and instruction in this catalog are only for reference.
